max**

HIGH PERFORMANCE, SINTERED COLOR BODY.

It all started with a desire to never stop searching, finding, and exploring for a new surface. A surface that rejuvenates the notion of ceramic tiles and at the same time is capable enough to bring beauty to contemporary architecture.

INSPIRED BY THE ARCHITECTURE OF ROME.

Extra max is the future of clean design because it holds in itself the essence of art and its style is a synthesis of beauty and luxury! Equivalent to Roman architecture, this collection helps your space expand exquisitely.

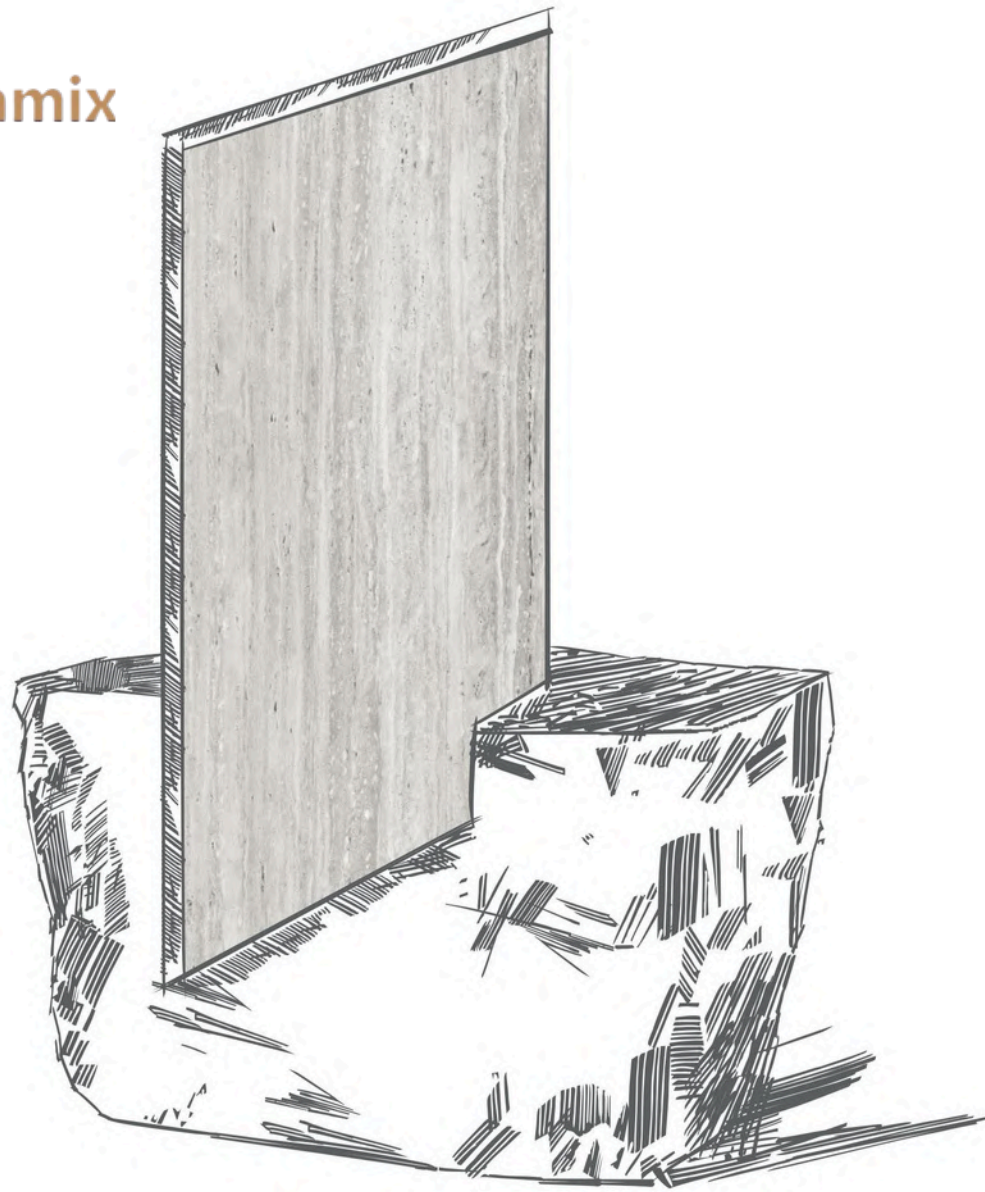

This collection comes in beautiful plus subtle monotone shades and is color-body slabs of 15MM thickness.

EXPRESSING AUTHENTICITY AND PERSONAL CERAMIC CHOICES.

Incorporated with colossal styles, soft looks, man-made creativity, and timeless material made after thought-provoking design schemes these surfaces by Flais are an innovative collection in line with the latest design trends.

SO CONTEMPORARY AND
SO CLASSY!

The simplicity of the polished-effect surfaces and the sense of authenticity of those who live in space are closely linked. Designers and architects thoroughly understand this relationship.

The Extra max collection creates new design scenarios in which interior and exterior urban architectures are in tune with living materials.
